

Ronald McDonald House  
SOUTHERN ALBERTA

## NOtaBLE goes “Home for Dinner”

The Ronald McDonald House’s home for dinner program works on the philosophy of a Jewish proverb that “worries go down better with soup”.

Often families staying at the house have other strains on their mind and spirit and finding the time for their own nourishment can easily slip to the back burner. The solution to this is the Home for Dinner Program in which groups of volunteers prepare a meal for all families residing at the House, and clean up after dinner.

On Monday, July 27 a crew of NOtaBLE staff donated their day off to prepare our first dinner to take up to the House.

On the menu was vegetarian lasagna, rotisserie chicken, green salad with an orange

tarragon dressing and la pièce de resistance; s’more bread pudding with smarties & skor bits!

Afterwards we had a tour of the house and everyone really enjoyed checking out the “teen room” as you can see (all kids at heart).

This is one of the initiatives that we have undertaken using our “Q-water for charity”

program where we take all proceeds from our quadruple filtered still and sparkling water and use them to support great causes in our community.

We look forward to doing many more of these dinners in the future.
